

Mexico Outreach 2019 – Vehicle Use Form

Dear Friends and Partners in Ministry,

Since 1996, thousands of Bayside students & adults have been going to Mexico to serve over 30 churches in the Mexicali Valley region. Participants go to training meetings, raise support, get time off work and in some cases, sacrifice participation on their athletic teams to serve for a week in the Mexican desert during their spring break. Homes are built, the homeless are fed, children jump in bounce houses, sing songs and most importantly learn about Jesus. The list just goes on and on. **None of this would happen if it weren't for people like you.**

Providing transportation for over 1,000 missionaries is one of our biggest challenges. Volunteering to loan a vehicle is a very tangible way of supporting this mission trip. We want to say THANK YOU! We also want you to know, right from the start, our approach to risk and liability, which has served our teams and those who volunteer their vehicles well through the years. Our transportation plan includes more than 200 vehicles traveling more than 1,500 miles. Such an endeavor does come with risk of breakdowns or even accidents. We do our best to reduce these risks and minimize negative impact for all those involved. Below are the basic elements of our volunteered vehicle plan.

Please take a few moments to familiarize yourself with how it works:

1. All loaned vehicles are to be treated with utmost respect and to be returned in the best condition possible.
2. All vehicle owners are expected to participate on the trip, however, you do not have to drive your vehicle.
3. All drivers have been screened, meet our insurance requirements, and are given directions as to driving safely in Mexico and the United States.
4. In cases of accidents, the vehicle owner's insurance would pay on a primary basis with Bayside's auto coverage paying on a secondary basis up to each policies limits of liability.
5. Bayside purchases insurance for all vehicles while they are in Mexico.
6. In case of a breakdown or accident, owners are immediately contacted regarding their vehicle. Repair costs will vary based on the nature of the breakdown/accident. Historically, Bayside has paid 50% - 100% of the repair cost. Each situation is different and all circumstances are considered before determining the payout.

Please Note: Bayside is not responsible for damages/repairs that occurred due to lack of maintenance.

Although you may already have this understanding, it has been our experience that clarifying these points before the trip eases sleep patterns and prolongs healthy relationships!

Every year our students go down with intentions to be a blessing, and of course, they are the ones most blessed. YOU ARE ONE OF THOSE BLESSINGS ON THEM!

THANK YOU!

Bayside Church, Mexico Outreach Team
